11-2-20

Dear Taylorville Community,

This release is to inform you that two separate COVID-19 positive cases have been reported in our district. One is a staff member at the high school and the other works for an agency that provides special education services in our district who worked at Memorial, North, and the Jr. High School.

Both individuals were last on campus Thursday (10-30-20) and received positive test results today. The school district worked with the Christian County Health Department and conducted contact tracing which included notifications to any students and staff who may have been exposed.

Deep cleaning and sanitation of the classrooms and school spaces utilized by the above have been addressed today. Additionally, the school custodians perform daily cleaning measures on surfaces in our schools.

The school district encourages all employees and students to stay home and get tested if they are exhibiting symptoms to help stop the spread of the virus. Additionally, please remember to practice healthy habits to ensure wellness (rest, nutrition, exercise, and open air your spaces).

If you have questions or concerns, please contact me as needed.

Be well,

Dr. Dougherty

TAYLORVILLE SCHOOLS ARE A+

The MISSION of Taylorville Community Unit School District #3 is to have each student acquire knowledge, skills, and values for life-long learning in a changing world through the cooperative efforts of caring staff, an involved family, and a supportive community.
